Extent: 268 pages
Size: 229 x 152mm / 9 x 6
Illustrations: 32+ bw stills

Rights Held: World

Description

A vivid and compelling study of the horror film and its subgenres from 1896 to the present, concentrating on the nature of horror in reality and on film.

“Kawin’s book, divided according to a taxonomy of the monstrous (‘Monsters’, ‘Supernatural Monsters’ and, ominously, ‘Humans’), soon settles into an astonishingly wide-ranging overview of the genre’s long development, from ‘The Cabinet of Dr Caligari’ and ‘Nosferatu’ to ‘Psycho’, ‘The Exorcist’ and ‘The Texas Chain Saw Massacre’, before culminating with such grimy twenty-first-century shockers as ‘Hostel’ and ‘The Human Centipede’. The author is especially interesting on some of the most famous big-screen bogeymen ... ‘Horror and the Horror Film’ is at its liveliest and most intriguing in its numerous glancing mentions of those obscure horror pictures (often, it seems, of the 1970s) which will surely be unfamiliar to all but the most gore-steeped of the cognoscenti.” —*Jonathan Barnes, Times Literary Supplement*

Horror films can be profound fables of human nature and important works of art, yet many people dismiss them out of hand. **Horror and the Horror Film** conveys a mature appreciation of horror films along with a comprehensive view of their narrative strategies, their relations to reality and fantasy, and their cinematic power. The volume covers the entire genre, considering every kind of monster in it – including the human.

After defining horror and thoroughly introducing the genre, the text offers a rich survey of all of the horror film’s subgenres, before concluding with a look at the related genres of horror comedy and horror documentary. International in scope, its survey extends from the first horror films (1896) to the present, discussing more than 350 movies. Through its comprehensive and detailed investigation of the genre, **Horror and the Horror Film** offers a compelling, insightful look at how the horror film frightens and revolts the viewer, its reasons for doing so, and the art of portraying and evoking fear, and will be a great asset to film scholars, horror enthusiasts and readers yet to be convinced of the importance of the genre.

Readership: This book will benefit film students and scholars, and horror fans and enthusiasts from high school age and up.

Contents

Preface; List of Figures; Part I. Approaching the Genre; 1. Horror; 2. The Monster at the Bedroom Window; 3. Fear in a Frame; Part II. Subgenres: The Book of Monsters; 4. Monsters; 5.
