6 x 9 inches

**Series:** Anthem Environment and Sustainability Initiative (AESI)

**A self-paced curriculum for learning the basic techniques government agencies, citizen action groups, corporations and research institutions use to solve pressing environmental problems.**

“This remarkable book contains everything you need to teach a rich, dynamic course on the practical and theoretical dimensions of environmental policy as well as to evaluate your students’ work. It integrates classic readings, commentaries, scenarios and assignments, along with videos of talks by faculty and presentations by students.” —Judith E. Innes, Professor Emerita, Department of City and Regional Planning, University of California Berkeley, USA

'Environmental Problem-Solving' offers a self-paced curriculum for college and university students who want to learn the basic techniques government agencies, citizen action groups, corporations and research institutions use to solve pressing environmental problems.

#### **About the Authors**

Dr. Lawrence Susskind is Ford Professor of Urban and Environmental Planning and Head of the Environmental Policy and Planning Group at MIT. One of the founders of the field of environmental dispute resolution, he has been teaching at MIT and Harvard for almost 50 years.

Dr. Bruno Verdini is Lecturer in Urban Planning and Negotiation at MIT, Affiliated Faculty at the Program on Negotiation at Harvard Law School, and Assistant Director of the MIT Science Impact Collaborative. His research focuses on energy transition, infrastructure development, and ecosystem restoration.

Dr. Jessica Gordon holds a PhD in Environmental Policy and Planning at MIT. Her research and work is on issues related to climate change, environmental policy, and sustainable development.

Dr. Yasmin Zaerpoor holds a PhD in Environmental Policy and Planning at MIT. Her research and work is on issues related to sustainable urban development in the global South, transboundary water governance, and negotiation.
