Ideas for a new and progressive trade and investment regime

“At a time when the global trading order is under assault, this volume offers a fresh perspective, reminding us that the sources of discontent extend well beyond shifting geopolitics and of the wide range of challenges that must be addressed.” —Mark Wu, Professor of Law, Harvard Law School, USA

“What does a progressive trade and investment agenda look like? How can international economic regimes tolerate more heterodoxy and pluralism? If states are to recapture policy space, this book could not be more timely. Its short and readable essays spark fresh thinking about routes previously foreclosed.” —David Schneiderman, Professor of Law and Political Science, University of Toronto, Canada

“Twenty-one leading progressive voices rethink the framework for global economic life. A must-read for scholars and policy makers frustrated by the lack of real alternatives to a global economy tilted toward the wealthy and the powerful.” —David Kennedy, Manley O. Hudson Professor of Law and Faculty Director, Institute for Global Law and Policy, Harvard Law School, USA

“World Trade and Investment Law Reimagined is a timely and exceptional volume on ways to address the current crisis in the liberal international order to achieve sustainable and inclusive economic globalization.” —B. S. Chimni, Professor of International Law Emeritus, School of International Studies, Jawaharlal Nehru University, India

In a time of turmoil in international economic law, experts from 10 countries suggest ideas for a new and progressive trade and investment regime in ‘World Trade and Investment Law Reimagined’ that would help sustain growth, facilitate development and ensure that gains are shared and losses compensated.
