A wide ranging analytical dissection of the Pakistani polity that offers a well meaning, progressive prescription for present-day Pakistan

Addressing the major social, economic and political issues facing Pakistan in a series of bracing arguments, this volume will be of interest to policymakers as much as to scholars and members of the reading public. It brings together in one place the most concise exposition and analysis of questions that all Pakistanis will have to grapple with over the next decade, and offers the reader clear options as to how they might be understood and addressed. — Faisal Devji, Professor of Indian History, University of Oxford

Rethinking Pakistan is a wide-ranging analytical dissection of the Pakistani polity and offers a well-meaning, progressive prescription for present-day Pakistan, stitched together by an eclectic list of experts spanning diverse backgrounds and subjects. From energy self-sufficiency and scientific development to freedom of the press and the essential question of the dominance of the military over civilian affairs, this compendium offers a suitable guide for anyone who seeks to understand the striking mix of contemporary and historic challenges faced by Pakistan in the twenty-first century. The book deals with Pakistan's contemporary realities and future prospects.
