**BIC CODE:** UYQ

**RIGHTS**

**Exclusive:** WORLD

**Key issues relating to artificial intelligence and government policies, and viewpoints from thought leaders across the world**

“A timely book on a critical issue. The future of any government should include its ability to adopt and embrace the AI revolution. This book supports this vision.” —Tanice (TK) Gonsalves, President of WTI, Washington DC

“The government now recognizes that intelligent automation (AI and RPA) are the key strategies for national security and development. The question remains “how to do it” effectively. This book takes a strategic perspective and focuses on a national strategy for AI.” —Michael McGeehan, Blue Prism, Executive Director of Strategy and Business Development – Public Sector, Washington, DC

On the commercial side, artificial intelligence applications are powering many sectors. Globally, governments are exploring ways to comprehend, incorporate, apply, and use artificial intelligence technologies. This innovative, forward-looking book assembles the viewpoints of global experts and thought leaders on key issues relating to AI and government policies.

#### About the Editors

Professor Al (Ali) Naqvi founded the first artificial intelligence business school, the American Institute of Artificial Intelligence, in Washington DC. He is the editor of the *Journal of Artificial Intelligence in Business, Policy, and Economy* and has designed several products using deep neural networks.

J. Mark Munoz is a professor of international business at Millikin University in Illinois, and a former visiting fellow at the Kennedy School of Government, Harvard University. He has authored/edited/co-edited over twenty books.
