Considers how literature, film, and narrative, more broadly, take up the complexities of health, demonstrating the pivotal role of storytelling in health politics

“This timely book collects a diverse set of essays that examine the stories we tell about our own and others’ health. The collection sparkles with intellectual curiosity and critique, illuminating myriad ways we have been shaped by cultural narratives about health and well-being.” — Joel Rodgers, Lecturer, Department of English, University of Toronto Scarborough

This intersectional collection considers how literature, film, and narrative, more broadly, take up the complexities of health, demonstrating the pivotal role of storytelling in health politics.
