Reveals the different components of Robert K. Merton's, an important figure in the mid-nineteenth development of sociology, work in terms of social theory, methodology and understanding modern societies

Robert K. Merton (RKM) was an important figure in the mid-nineteenth development of sociology in terms of social theory, methodology and several substantive areas key to understanding modern societies – the sociologies of science, media, professions and bureaucracy. This book reveals the different components of RKM's work and how each relates to the other.

Readership

Post-graduate students and researchers in sociological theory, methodology, sociology of science and organisations.

Key selling points

- No overview of in-depth discussions of areas of RKM's sociology since the Calhoun volume
- A polyphonic, collective analysis of RKM's works
- Reveals how RKM's works relate to each other
- Will re-stimulate interest in RKM's works
