Analyses the work of one of the most prominent sociologists of the past half century and what defines his enduring importance as a leading figure in social science.

Peter L. Berger (1929–2017) was among the most prominent sociologists of the past half century. He coauthored with Thomas Luckmann, *The Social Construction of Reality*, considered to be a modern classic of social science. His work on social theory, the sociology of religion, Third World development, and the role of capitalism in modern life define his enduring importance as a leading figure in social science.
