**Description**

**The third and final book in a clear and concise introduction to Latin designed to steadily lead students through a series of illustrative examples, readings, vocabulary lists and translation exercises.**

'I found the course very clear and straightforward – the layout is uncluttered and explanations of grammatical points are clearly expressed. The inclusion of English to Latin exercises is a good thing: I see this as giving flexibility to the course...The course is certainly well suited to CE in terms of vocabulary and the presentation of the grammar. The exercises are such as to give confidence to the less able students.' —*Jonathan Welch, Head of Classics, Kingshott School*

The concluding volume of Mike Seigel's new three-volume series continues the philosophy of the first two books, offering a variety of linguistic exercises that are supported by detailed insights into the history and culture of Ancient Rome, with stimulating full colour pictures to help bring the Roman Empire to life.

**Readership:** For all newcomers to Latin seeking a thorough grounding in the language.
